

Baseboard Heat Registers

Old-style Baseboard Registers

Brand new, economical, gravity-type registers! Common years ago, central gravity furnaces are not made anymore, but the antique painted over, bent, broken, heating vent covers remain. These hard to find baseboard vent covers have been discontinued years ago by other manufacturers. We are proud to offer this new product! These attractive, multi-valve dampered, steel register covers are a clean white color, with a professional enamel finish. They come complete with mounting hardware and are made in the USA*!

Overall Size (WxH)	13"x12"	15"x12"	15"x13"
Duct Opening	10"x8"	12"x8"	12"x8"
Order Part #	REG1312	REG1512	REG1513

All registers are 2 1/4" deep at the base and 1" deep at top.

* (2-piece construction; Frames: USA, Inserts: Mexico, Assembled in USA.)
